GitHub: https://github/aayush0024 **Mobil**e: +91-7888376973

SKILLS

- **Languages**: C++, Java, JavaScript, Python
- **Frameworks & Libraries**: ReactJS, NodeJS, Express, HTML and CSS, Bootstrap, TailwindCSS
- **Tools & Platforms**: MySQL, MongoDB, AWT, Java Swing, Git, GitHub, Postman, Vercel,
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOPs
- **Soft Skills**: Adaptability, Problem-Solving, Leadership, Time Management

PROJECTS

Bulletin Board – Blogging Platform | GitHub Dec 2024 - Feb 2025

- Devel Engineered a full-stack client–server application with RESTful APIs for managing announcements, users, and categories using structured MongoDB schema design.
- Designed secure CRUD workflows with server-side validation and structured error handling to ensure data integrity and reliable request processing.
- Optimized database indexing and query structure, improving data retrieval performance by ~30% under concurrent usage scenarios. **Tech stack**: ReactJS, NodeJS, Express, MongoDB

Reconly – Transaction Reconcile System | GitHub Jul 2025 - Aug 2025

- Architected a Java-based reconciliation system using hash matching to achieve O(n) validation of large trade datasets.
- Implemented optimized SQL indexing and transactions in MySQL to detect trade breaks, duplicates, and mismatches with ACID compliance.
- Engineered MySQL controls to improve anomaly detection and ensure data consistency across reconciliation cycles. **Tech stack**: Java, JDBC, MySQL, Git

NeuroWeave – AI Health Assistant Chatbot| GitHub Feb 2025 - Mar 2025

- Developed an AI-driven web chatbot integrating Gemini Flash API with structured JSON request handling and dynamic response rendering.
- Designed conversation flow control with input validation and fault-tolerant API handling to enhance interaction reliability.
- Fine-tuned prompt structure and asynchronous request handling, increasing response relevance and user engagement by ~30%. **Tech stack**: HTML Tailwind CSS, JavaScript, Gemini FlashAPI

TRAINING

Lovely Professional University – Mastering Java for Application Development Jul 2025 - Aug 2025

- Built strong foundational and advanced Java programming skills, covering OOP concepts, GUI design with Swing, event handling, 2D graphics, and essential development tools.
- Improved the ability to create database-driven and network-based applications, including performing CRUD operations through JDBC and implementing client–server communication.
- Enhanced practical application through multiple hands-on projects, including games, utility tools, and data-driven applications, ensuring industry-oriented competence. **Tech stack**: Java, AWT, Java Swing, JDBC

CERTIFICATES

- Master Generative AI and Generative AI tools - Udemy |**Link** Oct 2025
- Privacy and Security in Online Social Media – NPTEL |**Link** Sep 2024
- Introduction to hardware and Operating System – Coursera |**Link** Mar 2024

ACHIEVEMENTS

- Solved 350+ coding problems across LeetCode, GFG & HackerRank, sharpening problem-solving skills. Feb 2026
- Reached final round in Build-a-thon hackathon demonstrating strong problem-solving and coding abilities. Mar 2024

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.25*** *August 2023 - present*

Kendriya Vidyalya No.1, Adampur Jalandhar, Punjab
Intermediate; ***Percentage: 74.8%*** *June 2020 - May 2022*

EMM AAR International School Jalandhar, Punjab
Matriculation; ***Percentage: 91.25%*** *June 2018 - May 2020*
